Cost-effective pricing

I operate an extremely competitive and cost-effective pricing structure, starting at just KES 500 for one digital shot. This price is based on simple white-background tabletop photography of one single item. This price includes your image or images burned to a CD or DVD as a hi-resolution digital image, service charge and an 'All Uses' permit, which gives you the freedom to use your images as you wish.

Creative photography from Ronny Onkeo at competitive prices

In addition to basic white-background pack shot photography, I also specialize in creative product photography. This type of pack shot photography takes a little longer to set-up, often requiring props, lighting effects and styling, and is therefore charged at a slightly higher rate. The cost of props, models and locations etc. will be charged separately. Our rates for creative photography are charged by the hour.

Examples from my creative photography portfolio can be seen in the on-line portfolio at www.behance.net/onkeorronny9291

Contract, brochure and catalogue rates

I am always keen to speak to new companies and to increase my client list. In order to encourage this, I can offer highly competitive rates for ongoing contract photography work and for large catalogue publications. My pricing structure for commercial contract work is negotiable and I am confident that we can provide a quote for your catalogue, web site or brochure product photography that will prove very competitive.

Please contact me to discuss my special rates for contract work or catalogue photography. Looking forward to receiving your call.
